## Your Sun Sign Astrology Forecast Feb 2014

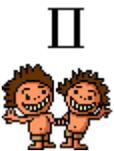

**Aries** 21 March – 19 April

Friends or team colleagues will help you achieve a breakthrough in an important goal. Find out what they know, or ask for their opinion. You will be noticed by those in authority above you. So either grab the opportunities, or be on your very best behavior. Family members want you to stay the same. Can you?

**Taurus** 20 April – 20 May

Stand still just for a second. Does that feel better? Racing won't get you to the finishing line. Take a deep breath and be prepared to look at something you thought you had dealt with. They won't do what they were supposed to do. You will need to mop it up.

**Gemini** 21 May – 20 June

I am going talk about money again. Yes, but this time you get to hang on to it. Be very careful at work because a lot of what you do will prove to be pointless. So don't waste energy pushing against a mountain. Bide your time. In the meantime entertain thoughts of travel or study.

**Cancer** 21 June – 22 July

You have been feeling enthusiastic and pushed at the envelope of life. Perhaps so strongly that you have overdone it, or even over-reacted. Especially at work. It will get easier as other people are coming around to see your way. They might not wholeheartedly agree, but at least they understand.

**Leo** 23 July – 22 Aug

Your emotions will be heightened with the Full

## Birthday Greetings go out to

**Aquarius** 20 Jan – 18 Feb

“We don't see things as they are; we see them as we are”.

Anais Nin

Thank you to the Aquarian who taught me the necessity of asking myself questions as well as paying attention to the answers!

**Pisces** 19 Feb – 20 March

“The way you get to know yourself is by the expression on other people's faces”. Gil Scott Heron

Thank you to the Piscean who showed me how to believe with all our minds, hearts and souls, in what we are doing at any moment in the day.

Moon in your sign. Especially when you realize that people are either hiding the truth from you, or being less than honest! You may want to go into hiding and retreat. You are a Lion and since they camouflage themselves magnificently; so can you.

**Virgo 23 Aug – 22 Sep**

There will be news that leads to a fun time, or a fun time that leads to finding out interesting news! But just when you think you know it all; you find out that you don't know it all. Assumptions create hassles. But enjoy the fun times and keep on smiling for no reason at all.

**Libra 23 Sep – 22 Oct**

It's time to make your home environment beautiful and you may even want to redecorate or entertain people. If there have been family hassles, then now is the time to mend bridges. Tension with partners around new ideas and changes need to be continually discussed. Stay loose and flexible and keep options open.

**Scorpio 23 Oct – 21 Nov**

You know just the right word to say at just the right moment. These words will soothe any situation and help keep the peace. You are very aware of home and work life balance and what needs to be done is now clear. But stay alert for young people, perhaps your children, which need to change their mind.

**Sagittarius 22 Nov – 21 Dec**

Hold onto what you value and it will grow. That includes self-worth, ethics and the inner values of life. First you must know what is valuable to you, so make a list. And while right now you may struggle with decisions, this list will help you know what to do when other people have other values.

**Capricorn 22 Dec – 19 Jan**

While lady luck will give you opportunities galore, please refrain from making decisions! You will only have to redo them, change plans or adapt. If you "have" to decide, then build in flexibility, or even an escape clause. Later in the month your loved ones will need to adapt even more than you do.

**Aquarius 20 Jan – 18 Feb**

A perfect month to get plans underway. You will soon have all the information you need, so gather resources. This will evolve over the next few months, so don't be in too much of a hurry. A good plan, just like a recipe, takes preparation and time. A clear picture will help you attain exactly what "you" want.

**Pisces 19 Feb – 20 March**

Lots of movement this month and lots and lots of talking. Some conversations will turn out to be a waste of time; others will be deep and meaningful. Taking a risk will be a problem and young people will be feeling powerless. If they are your children then expect them to act up!

Did you know that the Sun moves into the 12 signs of the zodiac on *slightly* different dates each year. If you are born close to the border of two signs then you are on the cusp and you are a blend of the two sun signs. The dates here are the 2012 Sun Ingress dates for Australia. Source is Solar Fire from Esoteric Technologies.

**Quote of the month**

*To stop your mind from endlessly thinking. Simply let "awareness" take over.*

*Be aware of the breeze, the smells, the colors, the creases on a person's face; everything around you. This is the joy of life. Look at everything and say "I see you" and watch your mood change.*

**Beans that bite, to choices that inspire**

Last week it seemed every prickly plant in my yard needed cutting or attention and I ended up with a couple of cuts and tears on every limb and my face. The lemon tree, the cumquat tree, the

gooseberries, the roses, and the beans, Yes the beans, which made the deepest reddest bloodiest cut of all.

Beans! Well that surprised me. As the blood dripped I went and had a look at the beans and found innocuous soft things. Hmm... so I looked harder and found the wire supports had come adrift and a spear like piece was hiding in the bean foliage.

Life lesson this month is "What looks soft, isn't necessarily so!"

On a more spiritual level, the wire was performing its essential essence. The beans theirs. I would have preferred that the wire only supported the beans. But I was the only one with a preference. They had none.

What makes us have a preference? Do we exercise the ability to have a preference? Is this ability really the choices we have?

Live with your own essential essence and make use of preference. That is, if something does not work, "prefer" to act differently. Use your preference as choices.

You are a certain Sun Sign, a certain Moon sign and your hands show you have a unique way of grabbing hold of life. You have preferences!

Enjoy being You and using your preferences. You are amazing.

As for me, at the moment I have no answers, just lots of questions? Is that my essential essence?

I finish on the one thing I **do** know. I need a wire cutter!!!! 😊

## What's that in the sky?

To be amazed by the heavens, first get your bearings. Note that the sun rises in the east, sets in the west and the warmest side of the house is north. 😊

### For all you night owls

Jupiter is the King of the Gods and he has control of the evening skies. The Moon will join him on the 11th for a beautiful sight. Nearly is Orion's Belt, known to us as the less romantic Saucepan. High overhead is Taurus the Bull. The Moon will be near Aldebaran (his eye), and above the Pleiades also known as the Seven Sisters, (his heart) on the 8th February. To give you an idea of how big Taurus is; the Moon will be above the two bright stars which are the tips of his horns on the 9th. That's wide horns and a big BIG Bull!

The Southern Cross is on its side through the month. Look south and let the two big pointer stars shown you the way.

### For all you early birds

Venus will be on the horizon as the beautiful Morning Star. Higher in the eastern skies is Saturn and nearly overhead is reddish Mars who is near to Spica the sheaf of wheat in the hand of the Virgo. Saturn is close to Antares in the head of the Scorpion and his tail with its stinger will curve deep into the Milky Way.

Let the Moon be your guide when she is with Mars on the 20th, with Saturn on the 22nd and either side of Venus on the 26th and 27th February. The Southern Cross is upright and high overhead showing us the way home.

Let yourself be awed!

Thank you to all of you for helping me smile at the world!
