MARCH ... The harvest month.

It's also a time to gather in the learnings from past experiences!

To each and every one of you; look at the earth and know that you are supported, look at your hands and know that you are unique, and look at the stars and know that you are part of something greater than yourself.

Your Sun Sign Forecast for March 2017

Aries 20 March – 19 April

What is the one thing in life that is constant and totally guaranteed? The answer is change. And for you it's time to change. Do not fear what is meant to be. You are in control of how you feel about it and you are in control of the myriad of small decisions that need making. Partners are focused on their own issues.

Taurus 20 April – 20 May

All that is hidden is revealed and all that has been ignored; will now need attention. This may surface through health issues, the gaining of greater responsibility, or losing a responsibility. Duty is a double-edged sword but just like a boil under the skin; healing can occur once its seen. You are not alone, for people are more aware than you think.

Gemini 21 May – 20 June

You have a social obligation, in fact we all do, but this month yours is reaching a personal intense high point and something must be done about it. Ponder on the meaning of "me" versus the "community" needs. It is time to be part of the group, to change it, to leave it, or to volunteer your skills without expectation of payment.

Cancer 21 June – 21 July

Big energy and possible changes are happening in the workplace, or any place that you have a role, paid or not. Sparks are flying and unless you stay very quiet, you will ride into the affray. Arguments are almost never about the real reason but can easily become reactive. Expanding or improving the home "nest" is where you really want to be.

Leo 22 July – 22 Aug

There is now an urgency about your personal quest for truth and meaning. This may appear as a drive to gain more knowledge, the restlessness to travel and explore somewhere new, or even dive into

legal issues. Are you learning that truth, values, inner beliefs and deep meaning are never black and white, but can carry many shades of grey?

Virgo 23 Aug – 22 Sep

It's time to stop trying to fix something, and to start letting it go. When something (or somebody) moves on, it's not about you, but it's about their journey and your role is to allow this release to occur. Emotional connections occur in surprising ways and can be with a person, a pet, a possession, a location, or even a role.

Libra 23 Sep – 22 Oct

Your partner in love, life or in business needs to take some action or make a change. No sitting still for them, it's a dynamic time which can feel somewhat awkward for you. Are your own changes part of this? Are they overreacting to something? If so, tell them, but they will still need to release energy. Suggest that they run!

Scorpio 23 Oct – 21 Nov

Responsibility and duty are heavy weights and are due for an overhaul. Work is a duty, your health is a duty, family is a duty, pets are a duty, taking-care-of-others is a duty. What else do you call a duty? Make a list and think deeply about things that no longer need to be there, and that which needs to be added.

Sagittarius 22 Nov – 20 Dec

A time of new life, new celebrations, new opportunities, new ventures, new risks and a whole lot of creativity! The cautious amongst you, and yes there are cautious Sagittarians, may feel uncomfortable. If so, learn to roll with the dice. Those inspired; take this as far as it will go, but please do not spend a big fortune to create a little one.

Capricorn 21 Dec – 19 Jan

This is perfect time for home renovations, tearing down walls and building new ones. Literally and figuratively. Thus, it's also a time where family tensions can stretch even the most understanding person and it can become a difficult time for peace and harmony. Ask yourself, "will this matter in a year?", and decide again whether to be upset or not.

Aquarius 20 Jan – 17 Feb

Information, learnings and journeys reach a peak this month. Your mind is electric and you may have trouble sleeping and will wake up tired. This is a perfect time for study or to see things in a new way. Go with the energy supplied and open your mind up to a new perspective. If overloaded, make space for peaceful thoughts or meditations.

Pisces 18 Feb – 19 March

What is worthy for you? Write a list of the 5 things you value the most. Leave it alone for a day and then take another look. I bet you surprise yourself and I bet there is something missing. Perhaps its appreciating yourself. A sudden buying frenzy can get you into trouble. If its planned and budgeted, then it's an investment.

II

We do not go around the Sun in a perfect circle each year so the dates that the Sun appears to move into the signs can vary by up to one day.

If you are born close to the border of two signs, then you are on the cusp and you are a blend of the

two sun signs.

Is it time to see what's happening for you?

In my work I will always use both Astrology and Palmistry. The Stars show your potential and your hands show how you grab **hold of life. Through them we look to your strengths, especially now and** to the future, and to see what to avoid, and what to enjoy.

Moe at Gippsdown on the Highway Weekdays by appointment in the beautiful and peaceful grounds of Gippsdown Heritage Village on the highway at Moe.

Phone readings for those at a distance at a time that suits you.

Birthday Greetings go out to....

Pisces 19 Feb to 20 March

"If you wander around in enough confusion, you will soon find enlightenment". Digby Diethe

I give thanks to the Piscean who does not mind that she is in a state of confusion. In fact, she knows that a period of time spent in surrenderingwill lead to insight!

I suggest that you channel the energy of a Piscean by allowing yourself to be a state of surrender.

Aries 21 March to 19 April

"It has long since come to my attention that people of accomplishment rarely sat back and let things happen to them. They went out and happened to things" Eleanor Furneaux Smith

I seem to be surrounded by Arians who bring a smile to my eyes when they show how to grab hold of life rather than sit back and wait. Channel the energy of them by trusting in yourself....not in others, not in the situation, or even the rules; but trusting in Yourself.

Quote of the Month:

The universal energies are particularly high at the moment and I while I have told you this old Cherokee story before.... We all need to be reminded of it again.

One evening an old Cherokee told his grandson about a battle that goes on inside people.

He said, "My son, the battle is between two "wolves" inside us all.

One is Evil. It is anger, envy, jealousy, sorrow, regret, greed, arrogance, self-pity, guilt, resentment, inferiority, lies, false pride, superiority, and ego.

The other is Good. It is joy, peace, love, hope, serenity, humility, kindness, benevolence, empathy, generosity, truth, compassion and faith."

The grandson thought about it for a minute and then asked his grandfather: "Which wolf wins?"

The old Cherokee simply replied, "The one you feed."

Gossip Corner What am I getting up to? Everything!

Great dates to put in your diary as well as a story from the **Meeniyan Garlic Festival last month**.... I had a marvelous day meeting lots of charming peopleand one in particular stands out.

It had rained on and off and unknown to me, the roof of the canopy had become a small swimming pool. I adjusted a sign which changed the delicate balance between weight, wind and water; and the whole lot drenched this most charming gentleman!!!

What a cold shock it must have been for him. To the gentleman concerned.... (he said he gets this newsletter), I send you a special smile of appreciation and loads of best wishes for your graciousness. Thank youand may nature's abundance thank you as well. ☺

Ancient Moon Gardening

The Autumn issue of the Ancient Moon Gardening Almanac and the Easy Planning Calendar has been sent out to all the wonderful members. May your gardens grow great!

Gazing out the window I can see the veggie patch and this month the sweet corn has been giving its abundant crops. I love the rustle of stalks as they shimmer in the wind. The tomatoes have moved into overdrive to make up for a late season and I think I have had quite enough of cucumbers! The last heat wave halted the beans but they are full of more flowers and small beans again. The break has done us all good as the week's respite has meant I am ready to eat beans again! The lemons and grapefruit gave of their last fruit, but the next season crops is already developing.

Watching nature and plants grow is a metaphor for life. This month I learnt that even if it looks like nothing much will come of it and you don't gather in what you expected....keep giving it attention and be patient.

News from the Stars

- 3rd March Jupiter in Libra opposite Uranus in Aries
- 4th March Venus turns retrograde in Aries
- 6th March Mars in Aries trines Saturn in Sagittarius
- 10th March Mars enters Taurus
- 14th March Mercury enters Aries
- 13rd March **Full Moon** in Virgo
- 20th March Sun enters Aries heralding the Autumn Equinox
- 28th March **New Moon** in Aries
- 31st March Jupiter in Libra square Pluto in Capricorn

The movement of the planets herald time when we feel mood changes, times we are galvanized to take action, and others times when we lack energy. There are shifts in feelings and energy levels at all New and Full Moons, when planets move into signs, or when there are connections (aspects) between planets, or when they turn retrograde or move direct again.

Pay attention to the days when these shifts happen and notice your feelings and energy levels. This understanding will enhance your experience of life.

To further experience the rhythm of the Moon I suggest that you aim to start new projects and events at the New Moon, and bring them to full development approximately two weeks later at the Full Moon. From the Full Moon back to the New Moon is a time to look at the consequences, to reflect on what you achieved and to think about changes or new ideas that you will “birth” again at the New Moon.

Enjoy the ride!

What's that in the sky this March?

To be amazed by the heavens, first get your bearings and note that North is the warmest side of the house. Face north and on your right, is the east where the Sun rises, and on your left, is west where the sun sets. Behind you is south. The brightest night is with the Full Moon on the 13th march and the darkest night is on the New Moon on the 28th march.

For all you Night Owls

This seems to be the hide-and-peek month. Look west and you may have a clear view of the Moon between bright Venus and reddish Mars. They will set early in evening and within a few days Venus will be too close to the Sun to be visible. Mars stays visible to the discerning viewer and gleams reddish on the horizon for a short while after sunset.

Jupiter is rising in the east but starts the month hiding very low, then continues to rise until he is clearly visible by the end of the month.

The Saucepan (Orion's Belt), Aldebaran in the eye of the Bull, and the Pleiades are our clear and present companions in the evenings. I told you last month how to find them.... Do you remember? Look straight towards north. The cluster of jewel like stars are the Pleiades.

For all you Early Birds

If you have to be out of bed in the early hours, you may as well look up and say hello to Jupiter and Saturn. Smile as you do so, and your day will improve markedly. Did you know that science has proven that starting the day with a smile and positive thoughts can rewire the brain and improve contentment? To get you started, Jupiter is the big bright one high in the west and Saturn is the creamy small one high in the east. Let the Moon be your guide when she is with Jupiter on the 15th march and with Saturn on the 21st March. Look up, smile and wave and see how your day brightens. P.S Golly gee....not while you are driving!

Let yourself be awed and mildly amused!

Autumn Equinox 20th March

This marks the natural end of summer and the beginning of Autumn and happens when the Sun is directly overhead at the equator. It will rise due east and set due west. That means that both the northern and southern hemispheres get an equal amount of night and daylight hours. Equinox means equal. The march downhill to winter has started!

I'm not using the rowing machine enough.... Time to set goals and peddling!
